AMEE PHILIPS®

Exclusive Jewellery Sale and Charity Auction

AMEE PHILIPS®, an internationally renowned jewellery designer, had an exclusive jewellery sale and charity auction at the Indulgence Restaurant in Ipoh on 7th September 2014. Charity being on her mind, she had requested Dato' Chong Phaik Kee, Perak State Director of Welfare Services, to nominate a Non-Government Organisation to benefit from the charity auction. Perak Palliative Care Society (PPCS) was nominated. This nomination was supported by YB Dato' Dr Mah Hang Soon (Perak State Government Executive Councillor in charge of Public Transport, Health, Non-Muslim Affairs and New Villages) who was also the guest of honour for the function.

After the official launch of the function, invited guests were given a lecture on gems. Guests then gathered around the display of exclusive jewelries designed by Amee Philips. There were 9 models showing off various jewelleries throughout the function. A special Western lunch was served for the guests. There was also a press conference where YB Dato' Dr Mah expressed his hope that more of such auctions be held by Amee Philips and other organisations to help NGOs in their charitable causes.

Amee Philips donated 3 pieces of jewellery for the charity auction. All of these were auctioned off for RM21,500. To add to this, YB Dato' Dr Mah Hang Soon pledged a donation of RM5,000 from the Perak State Government to PPCS.

PPCS wishes to thank Mrs Amirthavalli A V Muthiah (Perak Branch Director of Registrar of Societies), Dato' Chong Phaik Kee, YB Dato' Dr Mah Hang Soon and Amee Philips for their generous contributions which will undoubtedly be of great help in furthering the objectives of PPCS in making palliative care available to people who need it, irrespective of race and religion, by preventing and relieving symptoms so that patients with life-limiting illnesses can get on with daily life.

Dr Ghauri Aggarwal Visits PPCS

DR GHAURI AGGARWAL, Head of Palliative Medicine Department at the Concord Hospital in New South Wales, Australia, was here in Malaysia to deliver some scientific lectures at the 11th Malaysian Hospice Congress. Dr Ednin Hamzah of Hospis Malaysia made arrangements for her to visit PPCS on the 17-18th Jun 2014. With her almost 20 years of experience in Palliative Care, Dr Ghauri is such a valuable expert in sharing her knowledge with us. In addition to having discussions on management of cases by the home care team of PPCS, we also had ward rounds and bedside teaching at PCUs at both Hospital Raja Permaisuri Bainun and Hospital Batu Gajah.

We wish to thank Dr Ghauri for her visit to Ipoh and teaching almost all doctors and nurses involved in palliative care services in Ipoh. The sessions were great. Options for management according to ethical practices and approach to communications and even the handling of grief reactions, were discussed.

We also wish to thank Dr Ednin and Hospis Malaysia for making this possible.

THE MOMENT OF STANDING UP

hen I sat on a chair and stretched my leg out, it reminded me of an incident that happened this morning. Now, looking at my legs, being able to lift them up high and straight and maintain the same position for more than a minute is actually a privilege.

Mr R, 50+ years old, had left leg surgery done with some metal attached to his bone. His right kidney has been removed due to illness, and he had spinal surgery done less than two months ago. All these had contributed to his weakness which forced him to stay in bed for months. Even though the hospital physiotherapist taught him hands and legs exercises in bed and ordered a special spinal protection corset for him, he hasn't been able to stand or walk after his spinal surgery.

He had been referred for rehabilitation training in the hospital, yet things were not as simple as it seems. The appointment is due only one month later because of the long waiting list. Unfortunately, if he waits that long, he will lose all his muscle tone, his joints will be stiff and the chances of standing up will be slim. Our doctor, being aware of the seriousness of situation, worked out a special arrangement for him. A volunteer physiotherapist was willing to visit him at home to assess his needs and teach him some techniques to stand.

After the assessment and demonstration session, we helped Mr R fix on his special spinal corset and instructed him to hold the walking frame tight. When everything was ready, we both stood at his sides with one hand holding onto him and the other the frame, counting out loud: "One... two... three! Stand!"

He tried his best to put his knees together, to use all his body strength to straighten his legs. His hands shook badly while holding tight onto the walking frame. Heavy sweat rolled down his forehead. He kept panting. Sadly, he was still sitting on the bed, like being stuck with glue. Trial one: FAILED!

The physiotherapist allowed him to rest for a while and then instructed him again, slowly and clearly: "Both feet apart, hold the frame tight and look up. Take a deep breath. Remember to use the leg and hand muscles to lift your buttocks and body up."

This time he was ready, he had learnt the technique. Slowly, he stood up! His legs were slightly bent; his knees and hands were shaking. "Keep your spine straight", the physiotherapist reminded him. Then we put him down slowly. He looked tired.

"Wow! Congratulations! You are finally standing on your feet!"

All of us including his family were overwhelmed. I couldn't believe my eyes. He stood for 30 seconds! It took so much effort to achieve it. As his nurse-in-charge, I am so happy to see that achievement.

"Can I try again?" Mr R asked. Of course! This time, we taught his wife to assist him. He managed to stand up another three times, each lasting more than a minute.

Mr R's spirit stunned me. His self-determination is so strong. He maintained a positive attitude and never gave up. It was an exciting moment to see him stand up. Tears filled my eyes and I almost cried during that special moment.

There is a proverb: "No pain, no gain." We mustn't give up easily when faced with obstacles. I am glad that I have a healthy body and am able to move about freely. I am so thankful for our doctor's special arrangement with the volunteer physiotherapist. Without them, Mr R will not be able to stand up so soon. Also, the great hero is Mr R. I have learnt so much from this small incident. Currently, Mr R is able to walk using a walking frame without assistance. Hopefully he can walk on his own without any form of support. I hope to see him walk again very soon.
